When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

THE CONGRESS DILEMMA.

Whether by accident or on purpose, there is some great delay this year about opening Congress. The absence of one Senator, the illness of another, and the unavoidable family claims of a third are all assigned as the reasons of the delay; and, although at the beginning of the week it was said that a Senatorial quorum would be got together in a few days, the fact stands there is no Congress, no Senate, no quorum, and the single or double crank of our Republican machinery is out of order. This extraordinary state of affairs has already provoked great remark in the columns of our colleagues, who fail to discover any remedy for so unlooked for a hitch, save patience. We have therefore to wait for the returning convalescence not only of some of our Senators, but also of some of their wives, before Congress can meet and President Pellegrini deliver his valedictory. The worst of this Legislative dilemma is that in a few weeks the Presidential election question has to be settled, and settled by Congress in 'asamblea.' It would indeed be a pretty 'how do you do' if, when the returns from the electors came down from the provinces, there should be no Congress to decide on the returns. The constitution does not fix any date after the election for Congress to meet, whilst it is most precise as to the time when the electors must meet and give in their votes; four months before the Presidential term expires, which would be the 12th June, and in accordance with this article of the constitution the election has been fixed throughout the country for the 10th June next. But the voting of the electors is forwarded to the President of the Senate, and here arises the difficulty. Suppose through influenza or other sickness there is no Senate. Then what is to be done? We must all, however, hope for the best, and possibly what is ascribed to a political trick may, after all, be only a coincidence. So many strange things have occurred in this country within the last two years that we should not be surprised, if through accident or some political dodge, we have no Congress at all this year; in which case there would be no new pensions or taxes, no new railway concessions, no loans, and, as for the Executive, we suppose authority would be vested "pro tem" in the hands of the Chief Justice of the Supreme Court and Lord Mayor Bollini, who would take turn about in the Presidential Chair. We don't mean to say that things will come to this pass, but as the Argentines themselves say, if there is no one else to mount the "potro", why Mr. Bollini, as Lord Mayor, must do it.

Strange that the assumption of power as President should be termed as mounting a 'potro'; yet such is the proverbial way of expressing it, and possibly there may be good reason for regarding the country as a 'potro.' Viewed in this light the present difficulty arises from the 'potro' being an 'empacador.'

It is to be regretted that the Tucuman fathers of Argentine Independence never contemplated the present dead lock in Congress; as a mere line in the article of the Constitution making any number of Senators or Deputies after a third summons a quorum, (as is the case with most of our joint stock companies) would have at once settled the question.

We cannot believe that it is the object of the Senators or Deputies to plunge the country, just emerging from the crisis, into fresh political difficulties. The no-senatorial quorum is a mere coincidence, caused by the prevalence of influenza here and in the interior. Nor is there anything strange in this. Only last year the British House of Commons was almost brought to a dead lock, 176 members being down with influenza. Castor oil and mustard plasters may yet overcome the Argentine difficulty.

DR. GOYENA'S FUNERAL.

The remains of Dr. Goyena were interred yesterday and the funeral was the most magnificent witnessed for a long time in B. Ayres. The hearse was drawn by three pair of black horses, held by palfreniers. The President of the Republic, the ministers and the brothers of the deceased walked beside the hearse. Then came a procession of students, ten abreast, and finally the carriages. It took the procession three quarters of an hour to pass the corner of Florida and Cangallo. The streets were thronged with spectators. This immense manifestation walked to the Recoleta, where there were already several thousand people assembled. The coffin was placed at the entrance of the Recoleta, and here were delivered the speeches, of which we shall give a précis in our next.

The remains of Dr. Goyena were conveyed on Wednesday night from his residence in Flores to the Cathedral, where they lay in state. The Cathedral was crowded the whole night with friends and sympathisers who watched beside the body. At ten o'clock yesterday morning Mass was celebrated at every altar in the Cathedral for the repose of the soul of the deceased gentleman. The immense edifice was crowded. At midday the coffin was placed in the hearse and slowly conveyed to the last resting place in the Recoleta. So imposing a manifestation is a splendid tribute to the virtues which adorned Dr. Goyena during life and will ever envelop his name in a halo of glory.

PROVINCIAL NEWS.

The new Governor of Cordoba has named his new ministers, Dr. Nicholas Berrotaran as Premier and Dr. Francisco Alfonso as Minister of Finance. The provinces have no War or Foreign Affairs ministers. It is a good thing they have not, or they might declare war. Mr. Manuel Espinosa is the new Chief of Police, and Mr. Thiriot provincial accountant. This last named gentleman was, if we rightly remember, the Inspector who first opened the eyes of the public to the terrible rottenness of the Free-banks. In regard to the outgoing Governor, before returning into private life, he will flash once more like a meteor in the sky of public usefulness by assisting at the Agricultural Congress which is to take place in Esperanza. He leaves for Esperanza on Sunday next. We can pay the new Cordobese Government no higher compliment than comparing it to a new broom, the qualities of which are proverbial. There can be no doubt there will be an immediate improvement in things in Cordoba; but the question is, how long will the improvement last. Cordoba, once famous for learning and virtue, forfeited its fame and became celebrated for banking scandals and clandestine issues. What it is famous for at present it is difficult to say; if bad finances be a claim for fame, then the provinces, and particularly Cordoba, have very strong claims.

On Tuesday last, according to our Rosario contemporary the *Capital*, a "peon" named Roveré, employed by Messrs. Schiffner, committed suicide by hanging himself. Roveré was 37 years of age and was a steady man, and the police have been unable to find any motive for his fatal decision. Roveré was married and lived happily. He was liked by his fellow-"peones," to whom he never had expressed any intention of committing suicide.

The Metzlaff question is becoming very serious. Our readers, no doubt, remember the main features of this extraordinary case. A German sailor was killed by a police-commissary, and the commissary got off by paying the widow a sum of money. The German Government protested against this proceeding. The National Government called the Santa Fé Governor to account, but H. E. apparently did not wish to have the commissary tried for manslaughter. The National Government insisted. The Santa Fé Governor temporised, and now the National Government has again insisted and has given H. E. ten days to settle the question.

Another horrible murder has been committed in Santa Fé, this time in Elortondo Colony. The victim is an Italian named Rosa; the murderers barbarously cut his hands off and then despatched him. There was a double-murder committed only a few days ago at Gavoto. The increase of crime in Santa Fé is horrifying.

THE ASSASSINATION OF THE LATE LORD LEITRIM.

Most of us remember the sensation that was caused throughout the country fourteen years ago by the brutal murder of the third Earl of Leitrim. On the 2nd of April, 1878, Lord Leitrim, who was undoubtedly very unpopular in his own neighbourhood, was, along with his clerk and his car-driver, shot dead while driving about three miles from Milford, on the shore of Mulroy Bay, and not far from Manor Vaughan, his residence in County Derry. Lord Leitrim was shot in several places, and his head battered in. The coroner's jury found a verdict of wilful murder against some persons unknown; but who those persons were was never discovered.

Now, fourteen years afterwards, the *New York World* prints what purports to be the confession of one of the murderers. In its issue of the 13th inst. our contemporary says:— A few days ago there died in Cambria County, Pa, an Irishman known as Hugh Boyle. He was about fifty-two, and, although only a labourer, was much respected for his temperance, integrity, and industry. About the same time the English journals announced the decease of the fourth Earl of Leitrim. The connection between the peer and the labourer is due to the fact that Boyle was the last survivor of the men who, in 1878, shot to death the third Earl, by whose removal Richard Clements, then a lieutenant in the British navy, was raised to the title. Boyle's right name was Stephens, and he belonged to a family of yeomen. For thirty years the Earl of Leitrim had been at strife with his tenants. Hugh Stephens had served in the British army for five years and with an excellent record as a soldier. On his return home he rented a small place and commenced life as a farmer. One day he met his landlord driving on the road and was ordered to ditch his little cart so as to make room for the peer's coach, and this command was enforced with a horse whip, and resented with a cudgel, the Earl getting much the worst of it. This was the beginning of trouble for Stephens—he was evicted and ruined by litigation, and his sister, a beautiful and intelligent girl, was assaulted by a ruffianly retainer of his landlord and her character assailed. Some of the neighbouring gentry took this up; the man was arrested, tried, and sentenced to ten years' imprisonment.

In March, 1878, a dozen of the tenantry met in a rath in the mountains overlooking Lough Foyle. One of the oldest and most respected of the men on the estate said a few words to the effect that the tyranny of their landlord was more than they could endure, and all swore to be true to the cause in life or death; £90 was raised. It was resolved to act at once, and six men were chosen as the instruments of justice. They had brought themselves to believe that in the removal of a tyrant they were doing right. Stephens was their leader, and he procured the necessary arms. One of their most active and trusted agents was a woman servant at Lord Leitrim's residence. On the 2nd of April he left Manor Vaughan for Milford, en route to Londonderry. He was attended by a bailiff named Meehan, who sat on the car by his side, with the driver in front. There was a second car containing his valet and another bailiff. All were well armed. The day was beautiful but rather misty. Stephens and his party stationed themselves behind a clump of low thorn trees, close to the road, armed with double-barrelled guns. From the roof of a cabin 400 yards away on the hillside a white cloth was displayed. This was the signal that the Earl was coming. His indifference to danger was manifest by the manner in which he divided his party. The second car was 100 yards away and entirely hidden by a hollow in the road. A short time before Lord Leitrim had evicted an aged widow named Algoe, and opposite her ruined cabin he fell. Three of the party had been soldiers, and were good shots, and each brought down his man. One of the guns, a rude weapon, burst, and blew the holder's thumb off. The driver was killed on the spot. The bailiff ran back to the hind car, and dropped dead in the road; but the Earl was alive when his enemies surrounded him. When making an effort to draw his pistol he received three loads of swan-shot in the body, and when the party behind came up he was dead, and, save the ruins of the gun and an old horse-pistol, nothing was left to indicate the identity of his slayers. Nor were they ever traced. Two of the criminals died in Australia, two in the Boer war in South Africa, while Stephens went to America and led a blameless life until he died. Eight years ago he gave this narrative, intended to exonerate another man, with the stipulation that it was kept secret until after his death.—*Pall Mall Gazette.*

RAILWAY SPEED

The exact figure of the fast run on the London and Edinburgh East coast route, on August 31st. 1888, referred to in Mr. Parrott's communication, are as follows. Time 7 hours 26½ minutes, or, deducting 26½ minutes for lunch at York, stops of 2 minutes at Selby and 1¼ minute at Ferry Hill, 392½ miles in 416¼ minutes of running time. Speed, excluding stops, 56.5 miles an hour; including all stops but the one of 26¼ minutes at York, 56 miles an hour.

This was considered the fastest long-distance run on record till September 14th. 1891, when a train on the New York Central Railroad, weighing 210 tons, made the run from New York City to Buffalo, in 7 hours 20 minutes. 436¼ miles in 4392 minutes including stops, being at the rate of 59.52 miles per hour or, deducting 3¼ minutes for a stop at Albany, 2¼ minutes at Syracuse and 7¼ minutes near Rochester for a hot bearing, 436¼ miles in 426¼ minutes running time, 61.2 miles an hour! The run to Albany, 143 miles was done in 140 minutes, from Albany to Syracuse, 148 miles, in 146 minutes, and from Syracuse to East Buffallo, 145 miles, in 148 minutes, including the 7¼ minutes stop or 140¼ minutes running time, about 62 miles an hour. There are now daily trains running on this route between New York City and Buffalo, making four stops between terminals, the running time of which is 52½ miles an hour. One of the prominent features in the N. York and Buffalo run was the absence of any bursts of extreme speed. It was accomplished by steady fast running all the way, the extreme speed attained being but a few miles in excess of the average speed between terminals.

The Royal Blue Line between Jersey City (ferry to New York) and Washington, runs trains through at a speed of 52.8 miles an hour, the distance being 227 miles, and the line about as bad a one as could be devised to make fast time on. There are grade crossings with other railways, swing-bridges over navigable waters, and the line runs through large cities and towns at the street level. These obstacles make many slow-downs and stops necessary, and the result is that tremendous bursts of speed are made on favourable stretches, from 75 to 83 miles an hour for two or three miles being of daily occurrence. A train recently ran over this line in 240 minutes.

The Pennsylvania Railroad runs trains from Jersey City to Washington at about the same speed as is made on the Royal Blue Line.

What seems to the writer to be the best long distance service in the world is that existing between New York and Chicago, either via the New York Central, the Pennsylvania, or the Erie railroads.

The distance is about 1,000 miles, greater than from London to Rome; the time occupied in making the journey 24¼ hours, and the actual speed of the trains 45 miles an hour.

In the United States and England one often hears and reads startling stories told to illustrate the effects of very fast running, on the enginemen, most of of which are untrue, while a few have some slight foundation to build on, but are greatly exaggerated.

The writer has always advanced the opinion, based on personal experience and investigation, that the enginemen of very fast trains on roads adapted to making fast time are not of necessity under much greater nervous strain than the men running locomotives on slower trains, and he is glad to see the same opinion advanced by Mr. Theodore Voorhees, General Superintendent of the New York Central Railroad, in a recently published article. Mr. Voorhees says, speaking of irregular or "special" fast trains: "Such work always involves a certain risk, and is proportionately trying to engineers." Of fast trains running regularly, he says: "The exceptionally fast service between New York and Buffalo, involving as it does a speed of a mile a minute for the greater part of the distance, has proved no more trying to the engineer who runs the trains than to those of other regular trains of the same line. . . . . He knows that every man on the road is alert and looking for his train, that every possible precaution is taken to insure a clear track, that the chance of any obstruction is reduced to a minimum.

He drives his engine, conscious that he has the best "run" on the road, with no thought of possible danger, but with a feeling of pride that his engine is capable of such work, and that he is identified with a road where such work is possible." Again, he says: "Not long since the engineer of a limited train "pulled out" from a station where the train had made a regular stop. Within the next two miles he brought his train to the precise rate of speed called for by the schedule, about 44 miles an hour. After that, save for an occasional glance at his gauges "he apparently did nothing for nearly two hours." He did not move the throttle-valve, nor touch a lever. Except for his watchful look ahead one would not have thought him on duty. A few minutes later he gradually shut off the steam, and then with the air brake brought the heavy train to a stop at the end of an eighty-one miles run, exactly on schedule time." "Such coolness and accuracy, he adds "can only be acquired as a result of daily habit and long experience."

The locomotives used for hauling these very fast trains in the U. States weigh from 105,000 to 120,000 pounds in working order, exclusive of the tender. They have four driving wheels coupled, from 68 to 78 inches in diameter, and a four wheeled "bogie" truck. The cylinders are 19 or 20 inches in diameter by 24 inches stroke. The boilers are very large and a steam pressure of from 160 to 170 pounds in carried. Compound locomotives of about the same weight are now being quite generally used by many of the principal roads.

PROVINCIAL BANK OF CORDOBA.

The followiug is the official report to the Finance Minister in regard to the above bank. It is dated November 1890:—

I have the honor of informing Y.E. that I have looked over the books of this bank. The paid-up capital on 31st of December last was $19,755,490. I enclose a full statement of the sums due, shewing the names of the debtors, securities, &c., &c. I may observe that amongst these securities there are shares of the Bank, an operation expressly forbidden by the Free Banking Act. The Bank, moreover, had advanced large sums of money on real-estate for terms of ten years at lower rates of interest than those in the market, another expressly prohibited operation. "Irregularities" are numerous. I have found in the portfolio of the bank securities that are not worth anything. I have found bills signed by people who came to the town, saw the manager, obtained money on drafts, and went away again. I shall quote a case in point. Mr. ——— telegraphed from B. Ayres that he wanted $3,000. The operation was done, and the name taken down. On the expiry of the bill the gentleman in question got $731 more, to pay for plants he had bought. Then the highest employee of the bank used to take out cash and put 'vales' in. Almost all the bills in the portfolio of the Bank should have been paid up and cancelled in 1887.

I deem it advisable to call Y. E's attention to the following circumstance: no less than 20 million dollars, that is the entire amount of the paid up capital, was advanced to 68 people. I have dismissed half the personnel of the Bank, the other half being quite sufficient. This means a saving of $3000 per month. The employees I dismissed had really nothing to do. Many of them never even put in an appearance in the Bank.

Of the two millions advanced by the National Bank for the withdrawal of the unguaranteed notes issued by the Provincial Bank of Cordoba, the Board of the latter have used $1.300,000 for other purposes.

I have the honor etc.

VICTORIA CONVALESCENT HOME.

May, 16th.

Mr. Editor.

I have learned from reliable sources that to-night's meeting will see the old question of uniting the Home to the British Hospital brought forward, and I think it behooves every one who has the interests of the Home at heart to fight tooth and nail against the idea.

The Home as it stands is in every respect a most admirable institution and one that up to now has satisfactorily fulfilled its mission in restoring convalescents of all creeds and various nationalities to health.

It is well managed, its cleanliness is unimpeachable, the food excellent for all classes of patients, except, of course, for some of the 'free' patients' who are notoriously discontented and ungrateful all the world over; the charges are so moderate that almost any person can afford them, and lastly the present Superintendent and Matron are so genial and kind that they form in themselves a tonic before which the most obstinate weakness or loneliness of an invalid must give way. Why seek to change this desirable state of affairs? No one can imagine for a moment that an amalgamation with the British Hospital will be beneficial to the Home, a step which if taken will not only swamp entirely the individuality of the Home, but probably close its doors to all who were not patients of the Hospital.

Although the British Hospital is undoubtedly a very deserving institution, one we are all justly proud of, still it has been since its foundation in a state of difficulty, and its frequent appeals to the charitable public prove that it has quite sufficient to do to keep its own head above water without undertaking to manage another business.

The union of the two institutions would be productive of no good to either: the Hospital would gain nothing by it, the Home would certainly be a loser, and the general British public in consequence.

The Home was founded with the object which up to the present it has answered ably and well. Why, therefore, seek to change the actual state of affairs, which is recognized as satisfactory, for an experiment which may land the Home in debt, will most surely change its object, and cannot possibly prove beneficial to the British Hospital?

O. E. T.

[*Note.*—The above reached us too late for insertion before the general meeting.]

The whole of the troops of the Line that will parade on October 12th. to present arms to the new President of the Republic, will be clothed in brand-new uniforms, which are already being made.

SISTERS OF MERCY.

The Sisters of Mercy who are in charge of the Irish Orphanage had a grand feast on Saturday morning last, on the occasion of their receiving two postulants into the Order. The ceremonies commenced at 9.30 and the little church of the Convent was soon crowded. The orphans were also present and looked very nice and healthy.

The Rev. Father Merris, Passionist, received the postulants, Miss. Teresa McDonnell, daughter of Mr. Michael McDonnell of San Pedro, who will henceforth be known as Sister Mary Magdalena, and Miss Nora Griffin, who is Irish, and who enters as a lay sister under the name of Margaret Mary.

At the conclusion of an eloquent sermon the organ played some pieces of sacred music, and Mrs. Murphy and Mrs. Cooke sang some beautiful hymns, Afterwards the Reverend Mother invited a number of friends to breakfast.

Among those present were Mr. Mrs. and the Misses McDonell, Mrs. Hugh Duggan, Miss. Kelly, Miss. Dowling Miss. Kehoe, Miss. Moore, Miss. M. Kelly, Mr. John Murphy and the Misses Murphy, Miss. O'Farrell, Miss Harrington and Miss O'Donnell, and Messrs. James F. Gahan, Edward, J. Byrne, Michael Dinneen, Harrington, Leadon. —*Herald.*

MR. CLEARY'S ADVENTURES.

Buenos Ayres, May 19th

Mr. Editor

Referring to the extract from the *New York Herald* under the heading "Mr. Cleary's Adventures" published in to-day's STANDARD, I should be giad to be enlightened on the following point. It is stated that when the John Elder ran on the rocks on the coast of Chile, the captain being helpless, Mr. Cleary took charge of everything. Now, granting that the captain was helpless, where was the first officer? Even in the event of the captain and first officer being helpless, there still remain the 2nd, 3rd and 4th officers, on whom the command of the ship would fall, before Mr. Cleary's interference was necessary. I think that in justice to the officers of the John Elder this matter requires clearing up.

Curioso.

COMMERCIAL CLERKS' CLUB

At the meeting held on the 15th inst. in the rooms of the «Mision Obrera», before a large number of clerks of this city, it was agreed, after a warm debate about the installation, to form a provisional committee.

The following gentlemen were unanimously elected and have agreed to meet every Thursday evening:—

President—Mr. Godofredo Coca.
Vice President—Mr. Gmo. Philpotts.
Secretary—Mr. Alfredo C. Lopez.
Treasurer—Mr. Balder Moen.
Soliciting Committee—Messrs. Marcelino Herrerin, Julian Orbea, Ramon Torrentegui, George Appel.

THE RECENT RUN OF THE S.S. SCOTT.

Mr. Editor,

Seeing in your paper of to-day's date an extract from the *South American Journal* stating that the s.s. Scott had made the run from the Cape in 12 days 14 hours, I think this misleading. Probably she reached Madeira in 12 days 14 hours, and Southampton in 16 days, which I believe to be the fastest run ever made from Southampton to Cape town, or vice versa.

The s.s. Teutonic, of the White Star Line, a much larger and faster vessel than the s.s. Scott, might perhaps make the trip from Southampton to Buenos Ayres (6,000 miles) in about 12 days, as she is capable of doing in fine weather 500 miles a day.

R. B. J.

Note.—We find in the Dictionary of Statistics that the quickest run on record from Cape Town to London is 17 days, by the Rosslyn Castle, which is 16 days to Southampton. The *S. American Journal* is in error in making the distance 800 miles less to Montevideo. on the contrary, Montevideo is 300 miles farther from London.

GOOD NEWS FOR ESTANCIEROS

It wil be good news for agriculturists in many parts of the world to learn that at length a remedy—simple, cheap and effective—has been brought out, which if promptly used, will rapidly destroy any quantity of loeusts that may choose to invade their territory. The ruinous devastation caused by these voracious insects—in South America, for example—is simply indescribable, and estancieros have been at their wits' end for years, seeking for a remedy that will kill the locusts when they alight, and so prevent them increasing in numbers. Mr. Hayward (of the firm of Messrs Tomlinson and Hayward, manufacturing chemists, Lincoln, of sheep-dip celebrity), who has travelled all over the world in the interest of sheepfarmers, and aided them in the destruction of parasites, internal and external, has lately turned his attention to this important question, with the result above stated. Last year a large landowner in the Province of Santa Fé, South America, was so troubled with the locust pest that he purchased one of Messrs Hornsbys' Strawsonizers, which he found to answer exceedingly well for the purpose specially desired. This success at once established the «Strawsonizer» as the most suitable appliance for distributing any death-dealing substance, the remaining difficuly being to obtain an insecticide that would immediately destroy the locusts. It is a singular fact that many poisons do not kill parasite life instantaneously, and Paris Green, London Purple, and other remedies have been tried without avail. The great disadvantage of these is that, by reason of their poisonous nature, the herbage upon which they are sprinkled is rendered unfit for animal food. Mr Hayward's new preparation, however, is non-poisonous to animal life, and its effect upon the grass is beneficial rather than otherwise. It is distributed by means of the Strawsonizer, and is certain and sudden death to every insect that comes in contact with the liquid. So evenly is the preparation sprayed by this admirable machine that for a space of five yards every blade of grass is covered, and consequently it is next to impossible for an insect the size of a locust to escape without receiving its «quantum sufficit». Some interesting tests of the liquid and the machine have taken place this week, in the vicinity of the Spittlegate Ironworks, Grantham. A large number of black beetles, and cockroaches, were experimented upon, and all succumbed within a very short space of time, after being sprinked with the locust-killer. At first, the spray seems to enliven them considerably, but so powerful are its effects, that the insects soon begin to stagger, turn on their backs, and, with a feeble kick or two, expire. The liquid is comparatively inexpensive—costing, in England, about 2s. per gallon. Three or four gallons will be sufficient for a square, and will kill millions of locusts, that would otherwise do enormous damage, and eat the food of at least 24 sheep, or, if allowed to increase, the whole of the grass grown upon an "estancia." The liquid is a dark green in colour, and though haviny a very strong and pungent smell, there is not the least fear of it proving poisonous, either to man or beast. As we have before stated, it is most simple to use and thoroughly effective in its results, as evidenced before us in trials this week. We feel quite sure that neither the machine for distributing, nor Hayward's Liquid Locust Killer, for its destructive powers, can possibly be beaten. Both these important requisites are to be obtained at Messrs. Hornsby's store 114 Calle Jujuy, Buenos Ayres, and Messrs. Moore and Tudor's, 163 Calle Maipú.

QUILMES TRAIN ACCOMMODATION.

Mr. Editor,

In reference to the letter on Quilmes Train Accommodation, published in your columns to-day, I wish to ask two questions.

Are special late trains ever supposed to pay their own expenses?

Is not the main object sought by running late trains occasionally the comfort and accommodation of suburban residents, so encouraging people to reside in those suburbs to which a good train service is provided?

Quilmes will continue to be the worst served suburb of Buenos Ayres until the attention of the directors is called to the very insufficient train accommodation it possesses.

RAILWAY ITEMS.

The National Railway Board have issued a report on the guarantee account of the East Argentine for 1891. The Board, in their report, begin by calling attention to the working of the line during 1891. The working was as follows;

	$ gold
Gross Returns	119,450
Working-Expenses ..	131,077
Loss	11,627

The working expenses include the sum of $17,499 gold for the maintenance of a board in London, 13⅞ of the working expenses, and nearly 15% of the gross retnrns. Another item in the working expenses is $6,870 gold for loss in exchange. The N.R. Board advise Government to deduct these two items from the gross returns. In this manner, so far from there being a loss, the working expenses would shew a net earning of over $12,500 gold. So that the guarantee due is not $342,087 gold but $329,345. The report concludes with the remark that the accounts of the Company for 1890 have not yet been officially examined.

EDITOR'S TABLE.

Again did the National Senators fail yesterday in a patriotic effort to reach the quorum point. Seventeen honourable gentlemen assembled, but as the election of one of them was the theme of the day, he had to retire, and the no-quorum vacuum was again created. How and when is all this to end?

There will be a veritable treat in the Doria Theatre to-morrow night, when the talented and highly popular primadonna, Señora Asuncion Cabrera, will take her benefit in Aida. We bespeak a bumper for her.

The Franciscan Sisters of the Third Order have asked Government to pay for the laying of pipes for water and drainage in their eonvent in Calle Lavalle.

The demand for seats for the Boys' Orphanage concert on Monday next is such that those who do not look uncommonly sharp about their tickets are more than likely to be left out in the cold. Crowds are coming in from the suburbs, and even from distant camp towns. We are not surprised, as the programme is the most powerful musical magnet of the season. In addition to the cream of our musical amateurs—Mesdames Hume Miller, Baker, and Murphy, Mesdlles Lumb, Mackern and Tamini, Messrs. Tamini, Loder, Scott, Magrane and Dr. Hanly, Miss Webster will play a piano solo, and the audience will have the pleasure of hearing the splendid voice of the well-known teacher of singing, Madame Rabiati de Schor. Mr. Barnes and the well-known Professor Franceschi have generously offered their services (gratuitously) as accompanistr. With such an array of talent, and a selection of pieces of the very first order (see programme in advertizement column) we are not surprised at the undeniable enthusiasm the coming concert has excited in English-speaking society.

It may not be generally known that there will be two consecutive holidays next week, as the Feast of the Ascension will fall on the 26th.

The long list of "Asuntos Pendientes" in Congress, published yesterday by an evening colleague, wrung from us a sigh as big as the Rock of Cashel and as long as the Minister of the Interior's Memoria. Through the list can be traced the serpent trail of the "crisis of progress"; and the list of Pensions badly wanted is something phenomenal.

The death of Mr. Claudio Pitt, father of Mr. Pitt, the well-known broker, was announced to-day. He died at his quinta in San Isidro.

We call the attention of our readers to advertisement of Hurlingham Club Athletic Sports, to take place on Wednesday, 25th inst. This meeting has special interest from the fact that it is the first held under the rules of the lately formed Amateur Athletic Association of the River Plate. The prizes and championship medals will be on view at Messrs Gath and Chaves' on Monday 23rd inst.

The funeral of the late lamented Dr. Goyena yesterday was a sight never to be forgotten. There were more people at it than at the interment of Sarmiento's remains. We give particulars in another column.

Our next Packet Edition will appear to-morrow, for the French liner Congo, which will sail on Sunday.

The police have pounced on the Head Centre here of another bogus Lottery in one of the provinces. The *Diario* says there are dozens of these lotteries in the provinces all "Unidos" to swindle the public. The Montevideo Lottery is the only fair one, and many people have no faith even in that.

We made a mistake the other day in referring to the concert which the well-known Professor of Music, Miss Webster, is about to give, and the programme of which will shortly be issued. The date will be June 2nd (not 7th.) and the La France Hall, No. 444 Calle Suipacha, will be the 'locus in quo'. The instrumental part will consist of a trio of Mendelsohn's, a due of Grieg, violin and piano solos and Professor Galvani will play; the vocal includes songs by Mrs L. Baker, Mad. Bertha de Viñas, and Mr. Magrane. Tickets now ready at Hardoy's & Hartmann's, Florida, and Drangosh & Beines, Piedad 1032.

The mails for Europe to-day, per steamers Manilla and Galileo close at noon.

We have been favoured by some kind London friend with a file of the *Investor's Guardian* containing a deal of interesting writing in reference to the reconstruction of the English Bank of the River Plate. We'll lend the precious papers to any esteemed subscriber or constant reader interested who may wish to peruse all the articles etc, which are so monstrously long that we cannot find space to publish them, and it would be a pity and strain on our feelings to "boil them down."

The *World* of New York "tiene la palabra:—"An old chest that once belonged to Ferdinand and Isabella of Spain and was recently purchased abroad by a Chicago man was not allowed to get in by the customs officials until a heavy duty had been paid on it. It would be interesting to know what that duty is supposed to protect. Is it to encourage the infant American industry of manufacturing choice antiques to order?"

We hear that one of the gems of the Boys' Orphanage concert on Monday next will be Miss Lumb's rendering of the serenade by Massenet; it suits her fine voice so well.

The financial papers in London have got hold of the "true inwardness" of the "irregularities" that brought the National Bank of Uruguay to the ground, and most of which were given to the light of day by the *Epoca* of Montevideo. Our London friends are awfully disgusted, but profess not to be a bit surprised. The *Finanaial News* says:—"Allegations of cooked balance-sheets and other irregularities are not of much importance in comparison with the stupendous charges that we have enumerated."

At the meeting of the Montevideo Rowing Club on Monday last a letter was read from the President, Mr. A. B. Davie, expressing his regret at not being able to attend meetings, on account of ill-health, and desiring to resign his position. However, he was unanimously re-elected President, by acclamation, as also were the following officers:—Vice, R. Fisher; Captain, D. W. Fraser; Vice-captain, Arthur Davie. The following were elected by ballot as members of Committee:—Messrs. Ludeke, Poole, Clark, Dunbar, Dey, Hill, Trimble, A. Davie, Adam and Murray.

The Cinderella Dance on Wednesday night was a great success and lasted from 8.30 p.m. till 1 o'clock yesterday morning. Amongst the families present were those of Murray, Thursby, Smith, Alkaine, Mac Nally, Salmon, Anderson, Murphy, Boyd, Gannon, Oyler, Plews, Thompson, Carr, Scharf, Van Dewers, Gibson, Duggan, Hanly, Graham, Robson, Crowther, Bowen, Miller, Mackintosh, Mc. Clymont, Tullock, Patterson, Pilgrim, Shaw, Goldsmidt, Casa, Browne, Shaw, Bell, Lumb, Pasman, Drysdale.

We note in a notice of a raffle for a quinta in the suburbs that 'tendra lunar' etc. This is a most unfortunate printer's error, as it irresistibly suggests to the reader that the raffle is moonshine, like so many things of the kind have turned out.

American Hotel Clerk (suspiciously): "Your bundle has come apart. May I ask what that queer thing is?" Guest: "That is a new patent fire-escape. I always carry it, so that in case of fire I can let myself down from the hotel window. See? Clerk (thoughtfully): "I see. Our terms for guests with fire-escapes, sir, are invariably cash in advance."

The Minister of Foreign Affairs, Admiral Cordero and Captain Blanco went yesterday on board the Dutch man-of-war Somelsdyck, in the Darsena, to return the official visit paid to the Government the other day by the captain and officers of the ship.

Dr. Berg "received himself" of the Directorship of the National Museum on Wednesday. The Minister of Education has promised the new Director to touch up the Museum, which is in even a worse state of dilapidation than another certain Museum unnecessary to mention.

The latest about rice growing in Tucuman throws wool, wheat, hides, tallow, Rosario gin, and all other 'industrias del pais' quite into the shade and forces them to take a back seat. Mr. Bernau sowed last October four acres with three arrobes of the best rice seed, which produced 744 arrobes. The total cost of planting, gathering etc. was only $229, and his net profit $822!! We'll throw down the Pen, take up the shovel and the hoe, and start a rice plantation in the Garden of the Republic.

Velocipede races in Palermo are amongst the amusements on the card for the glorious 25th.

The bare idea of even mentioning financial solvency in connection with the "Sick Man" makes one laugh. Nevertheless, read what a London paper says on the subject:—"Turkey solvent, if only for a single year, is a sight for the gods. It is a fact, however, that for the financial year ending March 20th there is a surplus, the figures being: revenue 17,000,000 liras, expenditure 16,500,000 liras, or a surplus of 500,000 liras. This result has not been obtained by following the suggestion once made by a wag that the Sultan should sell a few dozen of the 'Sublime Port" in order to liquidate his liabilities, although it has certatnly come from an exception al quarter. It has occurred through the conversion of the Egyptian Tribute Loan, framed by Sir Edgar Vincent, and but for this there would have been a deficit of a million liras. It may be well to point out that the lira is of the same fineness as the English sovereign, and is worth 18s. Medjidié is another name for the lira."

We have to thank Captain Graham of the Leibnitz for his kind present of London illustrated papers yesterday. In the *Graphic* of the 16th ult. there are some beautiful views of Cannes and Antibes. At the latter place we recognize the beautiful residence of Mr. Wylie, who owned a large estanc

The best test of a Sheep Dip

PRACTICAL RESULTS OF USING A RELIABLE DIP WHICH CURES THE SCAB AND IMPROVES THE WOOL.

The following testimonial is received from Messrs Ronald & Rogers, the celebrated Brokers for River Plate wools at Liverpool who sold a number of lots of wool from some of the largest Estancieros in the River Plate.

COPY TESTIMONIAL

Telegraphic Address - Ronald, Liverpool, Exchange Chambers, Bixteth Street, Liverpool, 19th Feb. 1892.

Dear Sirs—
Amongst the River Plate Wools which we have sold here this season, our attention has been called to several clips which had been treated with Hayward's "Paste" Sheep Dip, and we have pleasure in testifying to the *freedom from scab, and handsome lustrous appearance of these wools, which we consider materially assisted in their obtaining such very good prices.*

ON 'CHANGE.

Thursday, May 19th.

A bullish breeze swept over the gold market all morning. The low rate of exchange, the extraordinary delays in Congress, the many wild political rumors, the shipments of specie, &c., &c., all combined to spread an uncomfortable feeling in the hall. An atmosphere of incipient pessimism is spreading all round, but gold rises very slowly and stubbornly. Seventeen thousand ounces changed hands at the first ring; the price opened at $53.40, rose steadily, and closed hard at 53.90, say 231¾ % premium. Fifteen hundred sovereigns were sold; the price opened at $16.62, rose to 16.70, and closed at 16.68, say 231 % premium. Amongst the many absurd rumors in the hall it was said that the Argentine Government had made large purchases of coal, and that the President had given fresh orders to exercise the strictest supervision over the political prisoners on board the Argentina. The unfavorable turn in the market was increased by these alarming reports, and the wonder is that the gold premium did not rush up much higher under the circumstances. One of our noon colleagues echoed some of these rumors, but the market at large does not pay much attention to the gossip, considering the reports as mere flights of fancy on the part of the enterprising gold bulls, who snatch at any straw to save their imperilled margins. The real cause of distrust is the low level of the exchange market—a fact that cannot be concealed.

The real difficulty in the situation is the tottering condition of exchange, for people necessarily distrust the future when rates fall in the month of May, at a period when produce is still going forward in large quantities and the supply of bills ought to be more than sufficient for the requirements of the market. We see, however, that exchange has been dropping for the last two weeks: the weakness, at first looked upon as temporary, is permanent and the conclusions drawn by merchants and others are necessarily unsatisfactory. The winter months are always a strain on this market, and much more so at a critical period like the present, when the slightest fraction under par rate of exchange must excite suspicion. The very ease of paper money at the present juncture, the revival of business, and the increased facilities afforded by bankers and capitalists are apt to suggest that the market is again on the wrong tack and that the crisis diet has been abandoned. Meantime, it cannot be denied that large quantities of produce still remain for shipment and that the fall in gold and decline in paper prices has consid

Dr. Fuentes of Montevideo was welcomed on 'Change; he reports affairs down there as very flat, and says that the total issue of paper money in the market does not exceed 2½ millions, and that some of the banks will not receive deposits, except from their old customers.

Circulars were sent round to the houses to-day by one of our private banks stating that, under new arrangements, deposits at 7 days' notice would be received, allowing 2 per cent on gold and 4 per cent on paper, and allowing depositors to draw cheques in anticipation, to which the bank will put its "conforme." This is a new departure in banking business in this market. The question is, how will the cheque hold for 7 days with the "conforme" on it? We suppose, however, that in time the custom will be established.

Contribucion Directa is now payable, and property holders will get a discoun of one per cent per month by paying up, which is a mere trifle when we take into account that, spite of the crisis, they have raised the house valuation in every street in town. Verily, these valuators have no conscience. Had we in all our Italian population a Dante, we should find the description of some special Inferno for the Argentine valuator and taxman.

We hear that Governor Costa has received a very favorable offer from a party representing a London syndicate for the renting of the Port of La Plata, but the La Plata Government declines to entertain the business.

The Dolores Joint-stock Bank is at last started; 57 shareholders met on Sunday and concluded the business. Dr. Alvarez presided, and spoke well; he was named Consulting Director. The Sindico was not named, a sufficient quorum not being present. The following form the board of Directors:—Sres. Juan Aguirre, Antonio de la Llosa, D. Martinez, J. C. Camino, E. Villas, M. Urcola, F. Ochoa, C. Madrid, C. Frigerio, P. Osinirry, B. Goicoechea, C. Rico, P. Garamendi, and J. Quenard. We regret that there are no English names on the board. Mr. Aguirre was elected President. We hope to see this young bank a thriving, flourishing concern. Local country banks meet a great want in the camp, and under good management will pay well their shareholders.

Mercantile and banking cricketers will take note that next week there will be two holidays. To your wickets, gentlemen!

Cheques of the Provincial Bank closed at 53% discount; those of the National Bank at 31½% discount. Bonos of the La Plata Mortgage Bank were at 16, say 84% discount.

The exchange market continued weak to-day; rates remained at par all round and very few bills offering. Brokers state that Rio Janeiro is still draining this market of exchange and that the requirements will cease this month.

The Italian steamer Perseo arrived at Montevideo to-day.

Affairs in the produce markets were more active this morning. The rise in gold improved paper prices and large quantities of wool changed hands. The feeling was better and good news is expected from Europe.

It was known this evening that the President of the Republic gave orders yesterday to put a stop to the daily visits to the political prisoners on board La Argentina. The news was interpreted according to the political views of those discussing the question, but the market at large attached no importance to the affair. The bulls imagined a gunpowder plot, but the bait was stale.

The Public Works Board applied today to the Minister of Finance for $1800% to meet expenses of drawing up the great map of the Republic.

Mr. E. L. Green has applied to the Navy Office for packet privileges for the R. M. S. Elbe which is posted to leave on the 23rd inst. direct for Europe. The packet has already a full cargo engaged between here and Montevideo and a crowd of passengers will leave in her.

The Public Work's Office has applied to the Minister for 45,000$ to effect repairs on roads and bridges.

The gold market opened very firm at the second ring, but produce gold was thrown on the ring, and as the day grew the market fell rapidly and heavily. The reported activity in produce circles and the prospects of a heavy supply of exchange bills created quite a revulsion in the speculation. Seven thousand ounces were sold for to-morrow; the price opened at $53.90, fell to 53.50, and closed at 53.60, say 22¾ % premium. One thousand sovereigns were sold; the price opened at 16.70, fell to 16.60 and closed at $16.62, say 22¾ o/o premium.

There was a great rally in Patriotic Bonds at the second ring: about three hundred thousand changed hands: prices for to-morrow opened at 62.10, rose steadily to 63.50, and closed at 63. Internal Bonds were also active and closed firm at 56.60.

Shares of the Old Gas Compauy were sold this afternoon at 82. La Plata Cedulas continued very dull and weak.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

Rio Segundo Brewery.

The Stout and Ale brewed at this Brewery are absolutely pure, they contain less alcohol and acidity than the imported brands and are recommended by the most eminent Physicians of the country. Both Ale and Stout are carefully pasteurized, thus preventing loss from excessive fermentation, and preserving them in good condition for an indefinite period.

Stout in barrel for draught.
Do in dozens of half bottles
Pale Ale do do of ½ and ¼ bottles.

PHOSPHATIC
BAKING POWDER

BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation. The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.

What a wonderful result is this!"

CHARLES OLMI
One of the most
NOTABLE SETS OF FURNITURE
In the country.

A splendid collection of oil paintings by Armenife, Bochini, Carcano, Coleman, Mancini and other artists of universal fame.

A small collection of fire-arms, the remains of the most notable one ever seen in this country

Carpets, chandeliers, curtains and furniture for bedrooms, drawing-room, study and dining-room, all of the costliest kind. In fact, they must be seen to be fully appreciated. The articles are more comfortable than regal; more varied in style than elegant, and are characteristic of the great man to whom they at one time belonged. Everything is rare, original and eccentric.

On Tuesday May 24th
at noon sharp

I will sell at public auction by order of the owner, Don Eduardo Perie, the splendid collection of furniture that formerly belonged to the late Dn Jose Paul y Angulo, and which will be sold in the house in which the lamented politician lived.

VENEZUELA 655 (altos)
(between Peru & Chacabuco)

The house will be open for inspection from Saturday 21st inst., so that those interested can inspect its contents at their leisure. As it is quite impossible to give complete details in this advertizement Catalogues containing them will be published.

I strongly recommend this exceptional household furniture; everything is good and in excellent preservation.

There is a magnificent drawing-room, three bedrooms, plated ware, glass etc etc.

It is necessary to see this residence of the deceased Spanish Revolutionist, at 655 Venezuela.

The auction will take place on
Tuesday the 24th of May
at noon

CHARLES OLMI
An imposing and dazzling set of furniture is now being sent to my Mart for sale; and I am decorating my premises in order to do it justice. Words are powerless, pole and paltry for any attempt to describe its magnificence. It was made to order for a foreign diplomatist, and has only been in use for three months. The owner has elected to send it to my Mart in order that the public may have a fuller and freer opportunity to examine the furniture, the regal chandeliers, carpets, curtains etc. of this diplomatist who lived in far greater luxury than a Rajah.

Each piece of furniture is a gem, and deserving a jewel case to itself.

This GRANDIOSE EXHIBITION will be open to the public day and night from Saturday, the 21st inst. Later on I will announce the date of the auction. Catalogues will be printed. It will be the most gorgeous Exhibition of Furniture seen up to date.

IMPORTANTE REMATE
De 1000 hectareas de riquisimo campo en Cañuelas.
A solo 20 cuadras de la Estacion. Todo alambrado y dividido en dos grandes potreros; cruzado por el camino de Cañuelas a San Vicente, alambrado por los dos costados, con una poblacion techo de fierro y material, un jaguel, laguna permanente.
Parte de los reputados campos conocidos por la Cabaña
"La Nueva Caledonia"
Campo riquisimo; algo excepcional, inmejorable para invernada, agricultura, etc. A las puertas de la Capital
Con la infima base de $140 la hectarea.
SUMAMENTE BAJA.
Hay interesados en arrendarlo a razon de $20 hectarea.
¡Soberbia Renta!
El dia Viernes 20 de Mayo
a las 2 p.m.
En nuestra casa Alsina 480 y 482, remataremos por orden terminante de su dueño, este soberbio campo, demasiado conocido y reputado para entrar en apreciaciones a su respecto; alambrado con postes cada 10 metros, con varillas de fierro intermediarias y 7 hilos de alambre. Los interesados que quieran visitarlo pueden hacerlo cualquier dia preguntando en la Estacion por el campo de Elia.
Linda con Luis Barreda, Centro Agricola Santa Elena de Martin Bcneo y Juan MacLymont.
Llamamos la atencion de la gente de dinero sobre este excepcional remate de 1,000 hectareas de campo tan rico, tan bien ubicado, tan barato, y que produce renta exorbitante.
Por planos y mas datos a nuestra casa Alsina 480 y 482.
Todo comprador abonara 5 o/o de su compra al firmar boleto.
